Openbravo recognizes winners of the 2010 ‘Partner of the Year’ awards

- Leading provider of open source ERP unveils awards for partner excellence-

Barcelona, Spain – 19th January, 2011 – [Openbravo](#), the leading provider of web-based open source [Enterprise Resource Planning \(ERP\)](#) has announced the winners of its ‘Partner of the Year 2010 Awards. The awards recognize Openbravo’s partners around the globe that have displayed excellence in their specific region over the past year, and contributed to Openbravo’s unprecedented growth.

As the web-based open source ERP market leader, Openbravo is committed to an active relationship with its partners: the companies that implement, customize and innovate with Openbravo products across the globe. The dedication of Openbravo Partners to different verticals, geographies and market opportunities is a major driving force behind the global uptake of Openbravo ERP. Openbravo Partners share one vision: to bring modern ERP to every type of company around the world.

[Andreu Bartolí](#), VP Channels of Openbravo, said: “While each of our Partners is a success story in itself, every year we at Openbravo face the challenge of trying to select the Partners have combined their talents and product knowledge to cross boundaries and exceed expectations. With so many talented companies to choose from, we have worked hard to identify those that have displayed excellence in their region over the past year.”

Openbravo is proud to honor these distinguished Partners in the following categories:

- **Partner of the Year 2010 – Spain:** [Microgénesis](#), a Spanish IT project engineering company specializing in open source business solutions.
- **Partner of the Year 2010 – Europe:** [Phidias](#), a French system integration company providing open source ERP services.
- **Partner of the Year 2010 – North America:** [TDS](#), a US company providing independent assessments, recommendations and improvements for IT, including applications software development, datacenters and operational support.
- **Partner of the Year 2010 – Latin America:** [Spocsys](#), a Mexican company providing small and mid-size companies with affordable and flexible enterprise business solutions based on open source and web technology.
- **Partner of the Year 2010 – India:** [Starlite](#) a Kolkata based company delivering world class IT services.

· **Partner of the Year 2010 – Asia Pacific:** [BIS R&D](#) a Malaysian company providing ERP solutions for small and mid-size businesses.

Andreu Bartolí concluded: “These awards are a way of sharing successes with our community and thanking each of our partners for the vital role they have played in Openbravo’s success.”

About Openbravo

Openbravo is an award-winning developer of professional open source solutions for businesses, offering the industry's first real alternative to proprietary software. The company's web-based Enterprise Resource Planning (ERP) solution, the most popular in their market, has been downloaded more than 1.8 million times and are used in over 50 countries.

Openbravo's growth is fueled by an ever expanding international community of users, partners and developers. The company's commercial open source business model eliminates software license fees, providing support, services, and product enhancements via an annual subscription. An expanding range of free and premium solutions and extensions for Openbravo ERP is available through the company's unique marketplace, [Openbravo Exchange](#).

Openbravo is venture backed and has received record funding in the Open Source ERP space from Amadeus Capital Partners, GIMV, Adara Venture Partners and Sodena. To find out more about Openbravo, please visit: www.openbravo.com.
