Openbravo achieves 1.7 million downloads, records demand for Professional Edition, and 160 new add-on modules

- Leading web-based open source ERP solution maintains market leadership with impressive adoption in more than 50 countries connected by global partner network -

Barcelona, Spain – 26th July 2010– Openbravo’s web-based Enterprise Resource Planning (ERP) solution for small and mid-sized businesses has now been downloaded more than 1.7 million times, making **Openbravo** the leading provider in its market space.

Throughout the first half of 2010, monthly new ERP downloads of Openbravo solution have increased significantly with an increase of 320% in five months.

Openbravo has also seen significant increase in demand for its Professional Edition, a commercial version of its **ERP software** that enables small and mid-sized businesses to enjoy the benefits of Openbravo’s market-leading open source software at a lower cost with exclusive functionality, professional support, warranties, certified updates and regular upgrades.

There has also been a major increase in demand for the flexible ERP add-ons that are available through Openbravo Exchange. **Openbravo Exchange** is the marketplace for production-grade applications and services that extend the application of Openbravo ERP, and it now offers 160 different modules, an increase of 40 percent since the beginning of 2010. Popular modules include vertical specific applications, such as hotel management or warehousing, apparel, as well as functional add-ons such as sales management or intra-company transactions.

Paolo Juvara, CTO for Openbravo said: “The significant increase in users investing in our Professional Edition shows that users understand the benefits of deploying commercial open source – it harnesses the benefits of innovation and development pace of open source, together with the peace of mind and reassurance of professional support. The ongoing support and contributions of our global community has also ensured that there are fascinating new applications regularly added to our unique marketplace, Openbravo Exchange, to continually drive innovation. “

Manel Sarasa, CEO of Openbravo, concluded: “We are very proud of our position in the market and the support of our community, users, employees, partners and investors that upholds our vision and dedication to open source. Our commitment to transparency, openness, collaboration and excellence has brought us to where we are today. It is these values that continue to allow us to deliver the best ERP solution for businesses around the globe. We look forward to reaching two million downloads and continuing to challenge and change how businesses around the world work.”

About Openbravo

Openbravo is an award-winning developer of professional open source solutions for businesses, offering the industry's first real alternative to proprietary software. The company's web-based Enterprise Resource Planning (ERP) and Point of Sale (PoS) solutions, the most popular in their market, have been downloaded more than 1.5 million times and are used in over 50 countries.

Openbravo's growth is fueled by an ever expanding international community of users, partners and developers. The company's commercial open source business model eliminates software license fees, providing support, services, and product enhancements via an annual subscription. An expanding range of free and premium solutions and extensions for Openbravo ERP is available through the company's unique marketplace, Openbravo Exchange.

Openbravo is venture backed and has received record funding in the Open Source ERP space from Amadeus Capital Partners, GIMV, Adara Venture Partners and Sodena. To find out more about Openbravo, please visit: www.openbravo.com.
